

## Advantages of an Internship

Building a resume is just the tip of the iceberg when it comes to having an internship during the school year. One of the biggest advantages is the ability to gain insight into a certain profession and decide whether it's right for you or not. It's better to know now than ten years down the road! You can also gain close ties with other people at your internship, which could translate to a strong recommendation letter in the future.

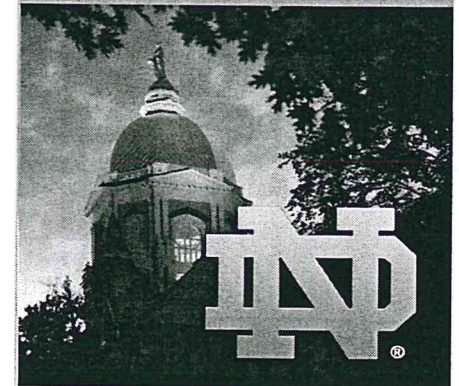

HELLO  
my name is

INTERN

## Why an Internship?

We get it. You're busy this semester. Why waste your time working without getting money? While an internship may not result in a big paycheck, an internship through Notre Dame will provide you both with school credit and with invaluable experience. The list of internships Notre Dame offers is extensive, and finding a good fit is never hard. A lot of the opportunities also allow you to give back to the Southbend community while building your own resume.

## Fall Internships

Why Internships at Notre Dame are Beneficial
