PROFESSIONAL EXPERIENCE

UNITED STATES NAVY

Lieutenant (O3)

August 2009 - July 2015

As a naval officer in the U.S. Navy Supply Corps, I deployed twice to the Middle East operating area in support of Operation Enduring Freedom, international efforts combating piracy, maritime security cooperation, and other U.S. Fifth Fleet Operations. In various roles while I was in charge of four divisions, I developed skills in logistics & quantitative data management, records auditing, and stock control. I supported 1,600 hours of flight operations as a helicopter control officer and supervised a flight crew of 25 sailors in addition to earning qualifications in other shipboard watch stations. During my time at Defense Contract Management Agency, I led negotiation efforts in support of multimillion dollar contracts, have conducted cost-price analysis and industrial analysis, and conducted data-mining analysis to support an investigation by the House Committee on Oversight and Government Reform (HOGR). During my time, I earned certifications in contracting and program management under the Defense Acquisition Workforce Improvement Act (DAWIA).
